New experiences with Nokia Nseries

See new

Capture the moment – in video or pictures – and then edit, print, share or store your memories. Nokia Nseries is your camera for the Internet age.

Hear new

Enjoy and manage your music collection wherever you go, with storage for MP3, WMA and other popular file formats. Synchronize your music collection between PC and the mobile. Connect your favorite headphones and listen to crisp, clear sound. Enjoy the in-built FM radio or 'watch what you hear' with Visual Radio.

Watch new

Whether it's 'must see' TV or something for the commute, catch your favorite programs on the move. Experience live TV with DVB-H technology, stream video over 3G or WLAN or download video-to-go from your computer.

Do new

Surf the Internet, check your email, add new software, schedule a meeting or stay in touch with your chat buddies. Read the latest news or search for the nearest pizza place. Nokia Nseries devices help you do more with features like Yahoo! Go, mobile search and integrated web browser.

Play new

Enjoy playing mobile games on your Nokia Nseries device – find, buy, play and manage high-quality mobile games quickly and easily. Connect to the N-Gage Arena and see who else is online to compete with or against.
